València-based **UX/UI designer.**
User-centered design drive me nuts!

EXPERIENCE

UX/UI Designer at IDRICA, Global Omnium
2021 - Current ⬏

As a UX/UI designer I am part of the product team, collaborating through sessions with user-centered design thinking methodologies to help efficiently improve satisfaction in terms of usability, navigability, accessibility, interaction and communication.

Creating software that helps specialized users in the world of water with high hydraulic knowledge in decision-making. Being part of more than 4 MVP's and the productivity of one of the tools.

Contributing to the internal Design System creating components and documenting them together with the development team in a storybook.
